---

From the moment I created my first project I knew I was enchanted in the world of coding. But I never view web/software development as another job to make ends meet. It is an engaging challenge to learn and improve my skills in creating fully functional projects. What started as a simple project bloom into a passion that keep on soaring.

Below you'll find projects I've completed that showcase my skills in building codes.

## PROJECTS

### BOOTSTRAP LANDING PAGE

A Call Center landing page using Bootstrap.

### MOVIE SEARCH APP

A Movie Search app to search your favorite movies. Use OMDb API through CSS and JavaScript.

### E-COMMERCE SITE

An e-commerce website including user and admin panel. Utilizes HTML, CSS, JavaScript, and PHP.

### INVENTORY SYSTEM

An Inventory System developed using PHP, JavaScript, and CSS. The project contains admin side that manages editing site contents, adding products, etc.

### HOSPITAL MANAGEMENT SYSTEM

A Hospital Database System use to search, add or book patients using JSP and Servlet

## EDUCATION

**APRIL 2020**

**DIPLOMA**, HUMBER COLLEGE

Computer Programmer Diploma
